

RTI AT WORK™ INSTITUTES

The right way to intervene

Gain unprecedented access to nationally recognized experts who have successfully implemented RTI and MTSS in a variety of settings—often with limited personnel and resources.

Through interactive activities and engaging keynotes, you'll learn how to build a powerful, tiered system of support that helps ensure every child reaches his or her full potential.

You'll learn how to:

- Target interventions to meet individual student needs
- Design master schedules that provide core instruction, interventions, and elective options for students at risk
- Identify effective Tier 3 interventions for students struggling with reading, writing, numeracy, and English language
- Use intervention time to extend learning for students who have already mastered grade-level expectations
- Understand the district's role and responsibilities in the RTI process
