Redefining Student Accountability

A Proactive Approach to Teaching Behavior
 Outside the Gradebook

By Tom Schimmer

The time has come to separate academic achievement from student behavior attributes. Author and trusted assessment expert Tom Schimmer shares a three-tiered framework and trauma-informed, restorative, and schoolwide approaches to teaching responsibility, nurturing student accountability, and addressing student behavior in a way that teaches students the life skills they need to thrive in the classroom and in the larger world.

- Learn how to create trauma-informed, restorative, and schoolwide approaches to teaching the skills of responsibility to students.
- Discover how to improve students' social competence through a process of goal-setting, self-monitoring, and self-reflection.
- Gain an understanding of how the PLC at Work[®] and RTI at Work[™] processes, as well as strong assessment practices, can redefine student accountability in the classroom.

Jackpot!

Nurturing Student Investment
 Through Assessment

By Nicole Dimich, Cassandra Erkens, and Tom Schimmer

An age-old question universal to all teachers is “How do we get our students to care about their learning?” *Jackpot!* delivers actionable strategies to achieve that most important outcome of assessment—student investment. Not only does the book offer tools you can use, but it also addresses the mindset shift necessary for teachers to set students up for success as partners in their own learning.

- Explore case studies covering a wide range of classroom experiences.
- Gain access to many different tools to successfully orient a growth mindset toward assessment.
- Understand the ideas behind successful assessment and how to put it into practice.

Standards-Based Learning in Action

Moving From Theory to Practice

By Tom Schimmer, Garnet Hillman, and Mandy Stalets

Get past the knowing-doing gap and confidently implement standards-based learning. Instead of comparing students to each other, this powerful educational approach compares students' comprehension to performance standards. Each chapter offers readers a well-thought-out action plan for implementation and effective communication strategies for talking with students and parents about the classroom changes that will occur during the transition.

- Explore concrete steps for putting standards-based learning, grading, and instruction into action.
- Implement schoolwide change beginning with classroom practices.
- Address common implementation mistakes and challenges.

Moving

A Memoir of Education and Social Mobility

By Andy Hargreaves

Foreword by Nicola Sturgeon

Social mobility—the chance, through education, to achieve greater success than one’s parents—is a compelling issue of our time. Beginning in 1950s Northern England, this candid, poignant, and sometimes hilarious memoir links Andy Hargreaves’s personal experiences of social mobility to today’s challenges of mobility and equity and urges society to reverse the trend toward social immobility and inequity worldwide.

- Learn, through the author’s research and firsthand account, how issues surrounding mobility, equity, and education in the 20th century are still reflected in 21st-century life.
- Understand the obstacles of socially mobile students as they negotiate schoolwork, poverty, cultural collisions, and personal hardship.
- Witness how Hargreaves’s experiences of testing, selection, ADHD, inspiring and uninspiring teaching, whole-child inclusion, and elitist exclusion are still alive and well in education today.

The Power of Unstoppable Momentum

Key Drivers to Revolutionize Your District

By Michael Fullan and Mark A. Edwards

Your school district can revolutionize its culture to improve student learning. This book details a simple but powerful process for integrating technology, pedagogy, and deep learning that leads to lasting change. Included are real examples of districts, including Mooresville Graded School District—a lowly funded, 50 percent poverty school district in North Carolina—that attained pedagogically driven, digitally accelerated success.

- Study how to form a strong cultural foundation that fosters student growth.
- Examine why human capital, social capital, and decisional capital are essential for sustaining deep learning.
- Discover the new thinking and actions that must underpin the use of technology in order to achieve the goal of improved learning for all students.

Leadership

Key Competencies for Whole-System Change

By Lyle Kirtman and Michael Fullan

Develop a creative, productive school culture. Based on their decades-long work in leadership, the authors offer seven core leadership competencies for systemic change in schools, districts, and state education systems. Discover targeted strategies to move past failed initiatives and overcome initiative overload, explore how to cultivate effective work practices, and gain the know-how to create enjoyable, innovative learning environments.

- Discover why it's a good time to be an educational leader.
- Examine how leaders outside of education share common practices that have brought them success and how this can inform educators' leadership practices.
- Study stories of district and school leaders who have broken out of confusing patterns of incessant initiatives.

Problems-First Learning

By Ted McCain

Foreword by Sara Armstrong

The educational pattern of lecture, listen, and forget is deeply ingrained in schools. In this user-friendly resource, author Ted McCain offers a compelling alternative that flips lessons on their heads: the problems-first instructional method. Using this method, you will fully engage students by first introducing a problem and then empowering learners to solve it using creativity, innovation, collaboration, and other essential skills.

- Identify the need for instructional change in the current educational system.
- Consider the transferrable skills students need for solving problems in the workplace and in life outside the classroom.
- Study the benefits of a problems-first teaching style.

Different Schools for a Different World

By Scott McLeod and Dean Shareski

Foreword by William M. Ferriter

This resource details six key arguments for why educators must approach schooling differently in the 21st century: (1) information literacy, (2) the economy, (3) learning, (4) boredom, (5) innovation, and (6) equity. Learn how schools are tackling these six arguments head-on in order to help students grow into globally aware citizens, risk-takers, innovators, and literate content consumers.

- Examine what makes traditional school reforms counterproductive.
- Learn about the common building blocks of deeper learning schools.
- Review the research that proves deeper learning environments enhance school results.
