

Chapter 6 Discussion Questions for Reflection and Action

As a team, discuss the following questions.

- How are Tier 1, Tier 2, and Tier 3 defined in a pyramid of interventions?
- What distinct tiers of interventions do your educators and staff utilize schoolwide?
- What shifts in practice do teachers need to make to have more effective interventions and extensions?
- How are academic and behavior interventions related?
- How are teams analyzing data to identify which students have learned and still need to learn?
- What intervention or extension strategies will you try to strengthen student learning in your school?
- What behaviors do teachers need to teach on your campus? How will students learn them?
- How will you know if the interventions or extensions you use are effective and grow learning? What data will you collect?
