

Chapter 8 Discussion Questions for Reflection and Action

As a team, discuss the following questions.

- What are some ways your school shows it is on a continuous-improvement journey?
- How does your team store team products so they are easy to find and learn from the next year?
- How might your team plan for student learning of the priority standards until the last day of school?
- When near the end of the year can teams engage in step-up transition planning and vertical team conversations?
- What does your team want to learn about incoming students so you can better plan for next year and begin teaching grade-level standards on day one of school?
- How will your team use data from incoming students to plan for targeted interventions at the start of school next year?
- What are ways you might celebrate teachers, collaborative teams, and students?
- How will you celebrate learning at your school to prioritize its importance and make it fun?
