

## Chapter Four Collaborative Team Discussion Questions

1. What are the positive and negative circumstances outside of school that impact students' ability to do homework?
2. How does or can this knowledge impact the practice of homework?
3. What are the benefits of a student or parent survey?
4. When giving students homework, how does their capacity impact the assignments given?
5. Prior to giving assignments, how do you ensure that you have the capacity to provide timely feedback to students on their work?
6. What would the impact be on your classrooms if you eliminated homework?
7. If you currently do not assign homework, how do you use class time to ensure that students are able to practice and apply the knowledge and skills needed to experience success?
