

Chapter 2 Reflection Questions

Teachers may reflect on the following questions, either individually or as a collaborative team. Their answers will inform their next steps.

- What is my biggest takeaway from this chapter? What immediate action will I take in my classroom?
- Currently, does my classroom instruction look more like that of a teacher or a coach?
- How can I transform my role in the classroom to better coach my students?
- How can data more meaningfully help me decide when individual, small-group, or whole-group instruction is best?
- How can I restructure class to build in more time for meaningful practice, allowing me more time to coach my learners?
