

## Design Modification Request

Students complete this form after initial prototype testing in order to identify and record planned modifications. They should have the teacher's signature before modifying.

Team member authorizing change:	
Teacher authorization signature:	
<b>Reason for modification</b> (What issue was the product or solution meant to resolve by the modification?)	
<b>Modification sketch or description</b> (Highlight the areas being modified. Attach a separate sheet of paper if needed.)	
<b>Before modification:</b>	<b>After modification:</b>
<b>Retest</b> (Using the same procedure that prompted the modification, retest or re-evaluate the product or solution after making the modification. Record the retest data in the following space.)	
<b>Modification results</b> (Describe how the product or solution performed differently as a result of the modification in the following space.)	
<b>Circle one to show whether the modification request is accepted or rejected.</b>	
Accepted	Rejected
