

## Keep a Positive Narration Journal

Positive narration is one of the key features to building relationships with your students and setting positive, high expectations in your classroom from minute one, day one of the school year.

Take several minutes to reflect on and answer the following questions.

---

What resonates with you about positive narration?

How and when do you plan to use positive narration?

Do you plan to teach your students why you use positive narration? If so, how will you introduce it?

What makes you nervous or causes you to pause about adding positive narration to your practice?
