

Understanding Values-Consistent Behavior

1. What makes school meaningful for this specific student?
2. What behaviors are moving the student toward a meaningful experience at school?
3. What else does the student gain from behaving in these ways?
 - Tangible things
 - Sensory stimulation
 - Peer attention
 - Adult attention
 - Escape
 - Other:
4. What conditions seem to support these values-consistent behaviors for this student?
5. What conditions might support similar behaviors in other students who share this value?
6. What other behaviors could students try in order to move toward a more meaningful experience at school?
