

Standard 3: Do and Avoid Chart

As you move through the standards for improvement, you will find things to do and things to avoid. After reading the effective and less effective practice examples and reflecting on them and the work of standard 3, complete the following do and avoid chart to help you record your thoughts about the work of this standard.

Instructions: Record what you plan to do and avoid. Consider the following questions.

1. How will you introduce your team to the processes introduced in this chapter?
2. How will you help your team use the processes and tools in this chapter?
3. How will you help your team investigate the causes of gaps in performance?
4. How will you help your team identify who can impact causal factors and root causes?
5. How will you help your team identify what the priorities are?
6. How will you facilitate identifying suites of solutions that can address the gaps in performance?
7. How will you help your team agree on and set SMART+IE goals?

Do	Avoid
