1	_ We hav	e identifie	d team	norms and	protoco	ols to guid	de us in	working t	together.	
2	We have analyzed student achievement data and established SMART goals to improve upon this level of achievement we are working interdependently to attain. (SMART Goals are Strategic, Measurable, Attainable, Results oriented, and Time bound. SMART Goals are discussed at length in chapter 6.)									
3	Each member of our team is clear on the knowledge, skills, and dispositions (that is, the essential learning) that students will acquire as a result of (1) our course or grade level and (2) each unit within the course or grade level.									
4	We have aligned the essential learning with state and district standards and the high-stakes assessments required of our students.									
5	We have identified course content and topics we can eliminate to devote more time to the essential curriculum.									
6	We have agreed on how to best sequence the content of the course and have established pacing guides to help students achieve the intended essential learning.									
7	We have identified the prerequisite knowledge and skills students need in order to master the essential learning of each unit of instruction.									
8	We have identified strategies and created instruments to assess whether students have the prerequisite knowledge and skills.									
9		We have developed strategies and systems to assist students in acquiring pre- requisite knowledge and skills when they are lacking in those areas.								
10	We have developed frequent common formative assessments that help us determine each student's mastery of essential learning.
