

Develop Vision

Name: _____ My gutsy goal: _____

Describe your long-term vision for your future. Start big picture and support that vision with why it's important to you. (If you have trouble, google the phrase "teens or students who have changed the world" to get ideas.)

Share what you have with a partner (if you are comfortable with doing so) to help sort out what you need to do to reach your goals. Refine your vision using SMART criteria. How can you make your vision:

Specific and strategic	Measurable	Amazing	Relevant	Time bound

Create a timeline for achieving your vision. Start with the end and work your way back.

START

MY GOAL

Write three to five sentences on how your vision and process for getting there align and have things in common with our gutsy goal for this class.
