

Assess Your Knowledge of Thinking Skills

Lesson plan or topic: _____

Choose three tools from the following list and write down your initial ideas for how you can connect some aspect of this topic with one of these tools.

Seek (read, listen, and experience).

Check claims, evidence, and biases.

Apply standards (discriminate input).

Use inductive and deductive reasoning.

Interpret and define the true problem.

Make predictions and inferences.

Analyze (by both whole and part).

Translate, explain, and take action.

Compare and contrast positions.

Tool 1: _____

Tool 2: _____

Tool 3: _____
