

## Assess the Connections in Your Life and Teaching

Who is someone from your youth that influenced the adult you became?

What did that person do to have such an important impact on you?

Who is one student or peer you have that you believe you have had a positive influence on?

How did that connection first form? What did you do to help make it into something so beneficial?

What percentage of time do you devote to in-classroom, collaborative activities? (Circle one.)

< 25%      25-50%      50-75%      > 75%
