

Your Changing Mindset

Mindset: _____

Do you buy into this mindset? Fully Halfway Reject

Why?

How could you take this mindset or its strategies further?

How will you track and respond to the evidence from the changes you make?

Respond to the following four questions, or share them with a colleague, and collaborate on the answers.

1. What has happened in the past in your classroom on this topic? (This speaks to your track record.)
2. Where do you see a place (if any) for making a change in regard to this mindset? (This speaks to your skills in reflection and the ability to be honest and actionable with yourself.)
3. For each change you'd like to make, what will be the evidence of success? How will you know when you succeed at it? (This speaks to your prediction skills and knowledge of your own limitations.)
4. When you have successfully implemented the changes from this activity, would you consider sharing your experiences (what you learned or did well) with colleagues? (This speaks to your social skills, school culture building, teamwork, and comfort with yourself.)
