

Behavior Tracking Sheet

This form can be used to track a student's behavior throughout the day. The educator should explain the expected behavior in advance. After each time interval, the educator should rate the student and provide feedback on each behavior. This allows the student to monitor their own progress and adjust during the day. At the end of each class or end of the day the adult should meet with the student and use this form as a teaching tool to help the student understand how they can improve. Students can also earn positive privileges for meeting a specific goal.

3 = Great 2 = OK 1 = Oops!

What did my social story say?

Name of student: _____

	Personal Space	Work / On Task	Nice Words	Quiet Mouth	Raise Your Hand, and Wait to Be Called On
Time:					
Teacher or Adult
