

## Ensuring Mathematics Concept Readiness

Before you teach a mathematics concept, even one that looks relatively simple, you need to first understand it thoroughly. As a supplement to your curriculum, use this checklist to make sure that you have mastered the concept.

Mathematics concept: \_\_\_\_\_

- ☐ I can explain the concept to an adult.
- ☐ I can relate the concept in kindergese.
- ☐ I can demonstrate the concept two different ways.
- ☐ I can give two examples of the concept.
- ☐ I have developed a sequential method for students to practice the skills associated with the concept.
