

Chapter 8 Essential Questions

As you reflect on this chapter, consider the following questions.

- Is your school ready to meet the minimum threshold we outline for moving to the new learning environments we propose? If not, what can you and other stakeholders do to make it ready?
- Where will your school get the higher-level, project-based learning activities for individualized learning?
- How will you make project-based and individualized learning activities available to students?
- How will you retrain teaching staff for their dual teacher-advisor role so they can effectively educate in an individualized and continuous-learning system?
- How will you inform the wider community about the changes in the school and the possible consequences?
