

Figure 3.21: Unitizing with a Linear Model Task

Use paper folding to locate the following fractions on the number line:

$$\frac{1}{2} \quad \frac{1}{4} \quad \frac{2}{4} \quad \frac{3}{4} \quad \frac{2}{3} \quad \frac{1}{6} \quad \frac{2}{6} \quad \frac{3}{6} \quad \frac{4}{6} \quad \frac{5}{6}$$

When folding the number line, only make one fold at a time. After each fold, mark and label the fraction that you found. Be ready to explain what helped you locate each fraction.
