

Figure 2.9: Protocol for Mathematics Tasks, Resources, Projects, and Activities

Directions: Identify any mathematics tasks, resources, projects, and activities you could use to teach students each essential learning standard. Determine which, if any, members will use across the entire team for instructional purposes. As a team, verify each mathematics task, resource, project, or activity aligns with a state standard and the daily learning targets.

Essential Learning Standard	Lower-Level Task Example	Higher-Level Task Example	School-Adopted Textbook Lessons	Explorations, Projects, or Activities	Supplemental or Online Resources
