

Chapter 4 Application Guide

Use the following application guide to connect these ideas to your classroom.

Chapter 4 Topics	Connect to Your Classroom
Instructional Routines	• If routines are already incorporated into your curriculum, look for connections between this chapter and your curriculum materials. • Look at the structure of your lessons and your daily schedule. Begin thinking about how you could make space for routines two to four times a week. • Look at the routines described in this chapter. Pick one and explain what it has to offer your upcoming mathematical content.
