

Reasons Why Students Might Fail to Complete Homework

In the first column, list logical reasons why a student might fail to complete a homework assignment. Across each row, list the current responses and interventions currently applied to the reason you listed for why students fail to complete a homework assignment. Next to each potential cause, place a plus sign for each response and intervention that would likely help the student improve. Place a minus sign for each response and intervention that would *not* likely help the student improve. Finally, circle each logical cause for which your school has no response and intervention to help the student improve.
