

## NEXT STEPS FOR RENEWAL AND IMPROVEMENT OF INSTRUCTION AND STUDENT LEARNING

The following tool details some steps you can take to experiment with strategies for renewing and improving instruction and student learning. For each step, note the date you tried it and reflect on how it went. *What did you do? How did it go? What would you change? What's next?* There are spaces available at the end for you to plan additional steps you can take toward teacher leadership.

Next Steps Tried	Date Tried	Reflection
Consider your school or district process for updating curriculum. Identify one additional thing that you could contribute to this process.		
Experiment with asking your students for feedback on a major assignment, a unit of study, or your approach to teaching.		
Use student feedback to improve some aspect of an assignment, a unit, or instruction.		

Identify the strategies you use to get to know your students. Create an opportunity to exchange such strategies with a colleague.
