

Figure 3.4: Learning Walk Planning Template

Before learning walks: To ensure you and your partner are visiting teachers meaningfully, spend five to ten minutes discussing the following questions before you complete learning walks with your partner or individually.

- What teachers do we need to visit and why?
- What data will we collect? What are the look-fors?
- How will we use the data?
- What feedback is needed? How will we follow up with the teachers?
- How might this impact our coaching?
