

Chapter 2: Leadership Self-Reflection

After reading this chapter, reflect independently, with a colleague, or as a leadership team on how your personal beliefs and practices influence your school's culture of belonging.

How can you support teachers in building strong positive relationships with their students?

How can I or another staff member find time to audit curricula and materials to ensure diverse inclusion on a deep level?

What changes can be made to my current hiring practices to ensure new staff members align with our commitment to a sense of belonging?

What steps have I taken to assess my current staff demographics and ensure diversity in representation and thought?
