

Debt Payoff Worksheet

To get started eliminating your non-housing and non-business debt, fill out the following chart. First, list everything you owe money on in the Debt Name column. In the Balance column, list the total amounts you owe on these debts. Finally, list the monthly payments currently due on these debts in the Monthly Payment column.

After you have listed all this information, determine which strategy you are going to use to eliminate your debt. Then, using the examples in this chapter, create a debt payoff strategy chart unique to your situation.

My Non-Housing and Non-Business Debt

Debt Name	Balance	Monthly Payment
Total:
