

Chapter 6 Reflection Questions: Adapting With Technology in an Ever-Changing Landscape

Understanding Digital Integration

1. How do your own feelings about technology influence your coaching of others?
2. What patterns have you noticed in how different teachers approach technology integration?
3. When have you successfully helped bridge the gap between pedagogy and technology?

Supporting Transitions

4. How do you maintain empathy while pushing for necessary technological change?
5. What approaches help you honor teacher expertise while introducing new tools?
6. How do you balance immediate tech support needs with deeper pedagogical growth?

Building Sustainable Practices

7. What structures could better support teachers through digital transitions?
8. How might you create safer spaces for technological experimentation?
9. What systems would help sustain momentum in technology integration?
