Figure 6.1: ADAPT Protocol for Digital Integration

Phase 1: Assessment Key Considerations What defines excellence in your current practice? Which approaches consistently produce strong outcomes? Where do you see opportunities for enhancement? Documentation Current strengths: Technology baseline (current tools and usage, integration successes, and implementation challenges): Growth priorities: Phase 2: Development Key Considerations What specific outcomes need enhancement? Which challenges might technology address? How could digital tools expand learning?	Teacher:	Date:

REPRODUCIBLE

Phase 4: Phased Implementation

Key Considerations • What's the minimum viable start? • How will you expand thoughtfully? • When will you assess progress? Documentation • Initial phase (2–3 weeks): • Growth phase (4–6 weeks): • Integration phase (ongoing): Phase 5: Testing Key Considerations • What evidence shows impact? • Where do adjustments help? • How will you refine further? Documentation • Impact indicators (learning outcomes, engagement levels, and efficiency gains): • Adjustment areas (challenges, revisions, and needs): • Next steps: Progress Check-Ins • Weekly (first month): • Monthly: • Quarterly (ongoing): **Success Indicators** • Learning impact (enhanced outcomes, increased engagement, and improved efficiency): • Professional growth opportunities: Next meeting:
